Objective

Computer Science undergraduate with strong foundations in Data Structures, Machine Learning, and Full Stack Development. Seeking a **Summer Internship at IIT Tirupati** to apply analytical, research, and problem-solving skills in real-world projects.

Education

B.Tech in Computer Science Engineering

Sri Venkateswara College of Engineering, Tirupati

Sep 2023 – Mar 2027 | CGPA: 7.5/10

Intermediate (MPC) – Sri Chaitanya College (2020 – 2022) | 80%

SSC – Kiran English Medium School (2021) | 82%

Technical Skills

- **Programming:** Python, Java, C++, JavaScript, TypeScript
 - **Core CS:** Data Structures, OOP, Problem Solving
 - **Machine Learning:** scikit-learn, XGBoost, Random Forest, GMM, Prophet
 - **Web & Backend:** Flask, Django, REST APIs
 - **Databases:** SQL, NoSQL
 - **Tools:** Git, Jupyter, Matplotlib, Seaborn, Agile Scrum
-

Projects

AI Career Guidance Chatbot | Python, Streamlit, Generative AI

- Developed an AI-powered chatbot that provides career guidance and personalized learning roadmaps.
- Designed an interactive interface to answer career-related queries in real time.

Movie Recommendation System | Python, Pandas, Scikit-Learn, Streamlit

- Built a content-based recommendation system using TF-IDF vectorization and cosine similarity.
- Generated personalized movie recommendations through an interactive web application.

Car Price Prediction System | Python, Pandas, NumPy, Scikit-Learn, Streamlit

- Developed a machine learning model to predict used car prices using regression techniques.
 - Created a Streamlit-based web application for real-time price prediction.
-

To-Do List Management Application | Python, Streamlit

- Developed a task management application for creating, updating, and tracking daily tasks.
- Designed an intuitive user interface to improve productivity and task organization.

Internship Experience

Data Science Intern – Info Bharat Interns (2025)

- Developed ML pipeline for sales forecasting and churn prediction
- Performed data preprocessing, feature engineering, and visualization

Infosys Springboard Virtual Internship 7.0 (Dec 2026 – Ongoing)-

Working on Python, ML, and industry-level projects

Certifications

- Python Full Stack Developer – Infosys Springboard
 - Databases and SQL for Data Science with Python – IBM (Dec 2025)
 - Introduction to Generative AI Learning Path – Coursera (Dec 2025)
 - Google AI Essentials – Google (Feb 2025)
-

Research & Interests

- Machine Learning & Data Science
 - Generative AI & Large Language Models
 - Full Stack Development
-

Strengths

- Strong problem-solving and analytical thinking
 - Effective communication and teamwork
 - Quick learner with adaptability
-

Additional

- Actively practicing Data Structures & Algorithms
- Interested in research-oriented internships and innovation projects
